

Stretch Wear Size Chart

After measuring your students, refer to the size chart below and choose the size that best fits each performer's measurements. If the student falls between sizes, the GIRTH is the most important measurement and should determine the final size chosen. You are responsible for the size you choose. The size must be marked on the measurement sheet before you send it in. You must sign this sizing chart indicating that you have read and understand our sizing policy. Orders will not be processed without this signature. Be sure to **ORDER EARLY!!**
